## **DETAILED ACTION**

### ***Ex parte Quayle***

This application is in condition for allowance except for the following formal matters: objection to claims 182-195 and 238-249.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

### ***Response to Arguments***

The rejection of claims 182-195 and 238-249 is withdrawn in view of Applicants' arguments. The rejection of claims 196-238 and 250-285 is moot in view of the cancellation of the claims.

### ***Claim Objections***

Claims 182-195 and 238-249 are objected to under 37 CFR 1.75 as being a substantial duplicate of claims 78-91 and 134-145, respectively. When two claims in an application are duplicates or else are so close in content that they both cover the same thing, despite a slight difference in wording, it is proper after allowing one claim to object to the other as being a substantial duplicate of the allowed claim. See MPEP § 706.03(k).

There is no discernable difference in scope between the claims because independent claims 182 and 238 require an agonist antibody, even though they are silent in this respect. Parallel independent claims 78 and 134, respectively, do recite that the antibody is an agonist and are otherwise identical. Parallel dependent claims are also identical.
